4 DECEMBER DEADLINE

Free tickets for Indonesians under repatriation scheme

Times News Service

MUSCAT: Indonesian nationals in Oman, who wish to permanently leave the country because their documents have expired, will be offered free plane tickets home, if they register for the programme allowing them to depart without paying any labour-related fines, before 4 December, the Embassy of the Republic of Indonesia has said.

“To attract as many applicants as possible, the Indonesian embassy has worked with the Indonesian government in Jakarta to provide free airplane tickets for those who have registered no later than 4 December, 2020,” said the embassy in a statement.

Those who wish to leave have also been asked by their embassy to contact them so they can help with all the procedures related to their departure.

“The embassy has been making announcements on social media and other virtual communication platforms to its nationals,” added the embassy.

“To further widen encouragement for registration, the Indonesian embassy is also holding outreach programmes to

provide information about this programme being open for all workers who wish to travel home for good, and exempt them from paying fines.”

There are some 826 absconding Indonesian workers in the country. Most of them live in Muscat, Salalah, Sur, Nizwa, Ibri and Buraimi. During an amnesty declared by the government in 2015, the embassy managed to send home 897 workers.

The number of applicants has reached 121 people, and 80 have already been processed by the Ministry of Labour. It is expected there will be more people who will apply and undergo processing over the next few days, so that they can get free tickets from the government.

merce, Industry and Investment Promotion commended the depth of economic ties between the Sultanate and the UK.

He pointed that bilateral eco-

omic cooperation covers a wide range of sectors, including oil and gas, technology and infrastructure.

Al Yousef said that the Sultan-

ate has the right setup for investment and business activities and that it represents an ideal gateway for flourishing regional and international markets.

The forum reviewed working papers presented by the Public Authority for Economic Zones and Free Zones, the Ministry of Transport, Communications and Information Technology, Asyad Group and Petroleum Development Oman.

Incentives offered

It also explored the investment climate in the Sultanate, its components and the incentives that it offers in the sectors of manufacturing and logistics services.

The Ministry outlined the services that it offers to entrepreneurs via 'Invest In Oman' platform, which provides investors streamlined finalisation of transactions.

The United Kingdom tops the list of investment parties in the Omani market in terms of volume of direct investments, with the trade balance in this segment standing at OMR7.5 billion at the end of the first quarter this year, compared to OMR7.3 billion during the corresponding period last year. — OMA

RESTRICTIONS EASED

<FROM A1 Ensure social distancing

To ensure social distancing measures, a one-way route sign is posted.

"Furthermore, a minimised number of visitors are allowed in the museum galleries and elevator," the museum added. "All visitors will be welcomed by dedicated guides for a guided tour with a limited number of guests per group."

People in the country were happy to hear of this latest announcement. "We have been at home for quite a long time now, and have been unable to go anywhere," said Ayman Al Sharji. "I understand it has been for our safety, but now that many countries around the world will soon be receiving the coronavirus vaccine, it makes sense for all of these activities to reopen. He added. "They will be relieved to hear this because they can start earning money again."

Jaya Rao, an Indian expat, said, "We like exploring Oman's forts and souqs, and our children love the heritage of the country, but we haven't been able to share it with them for the last few months since all of these places were closed. We're planning to visit one of the forts in the capital this weekend...hopefully they will enjoy going there."

MINISTRY OF HEALTH'S SURVEY

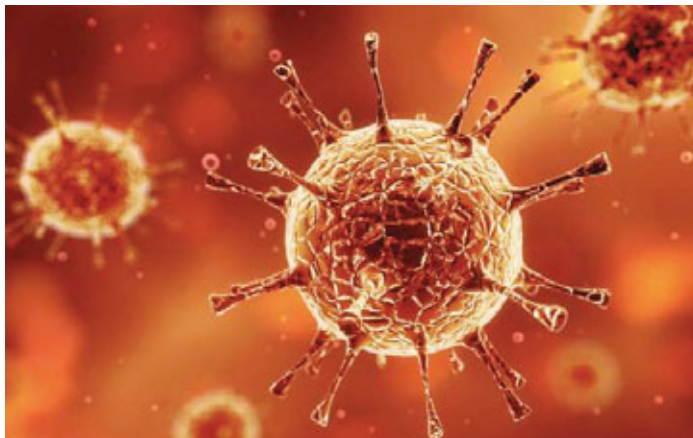

<FROM A1 'Fever, cough associated with higher risk of admission'

During the study period, the rate of admission in general wards was (4 percent) whereas (0.4 percent) were admitted in ICUs, COVID-19 pandemic has been recorded as a cause of death in (0.5 percent) of the cases, with an estimated mortality rate of 8.2 per 100,000 population out of the total population of the Sultanate (4.49 million).

With regard to symptoms, (40 percent) of these cases suffered from fever, 38 percent had coughs, 37 percent had sore throats, 34 percent did not suffer from any of the symptoms studied and 12 percent reported the presence of the three mentioned symptoms together.

The symptom of fever and cough was statistically associated with a higher rate of admission in general wards and admission in the ICUs while people who suffered sore throat were found to be the least admitted in the hospital, indicating that sore throat could not be used as a risk factor.

The most affected chronic diseases in admissions in general wards and ICUs, as well as deaths were diabetes (2.9 percent), high blood pressure (0.7 percent).

It was observed that patients over 60 years of age had a higher risk of admission (eight times), ICU admission (11 times) and mortality (4 times higher) than those aged 15 to 60. In addition, the results showed an increased risk of death among patients with certain chronic diseases including chronic lung diseases (4 times), as well as a BMI >40 and chronic kidney disease (3 times) each.

While this study has clarified the most vulnerable groups and the high-risk rates associated with them, it may be possible for

some to think that they are safe from danger as long as they are not belonging to these groups. However, the study stresses to all other people among the low risk groups the importance of taking preventive measures to spare the high-risk groups whom are living among us, the risk of infection transmission, which may lead to possible admission or death.

Consequently, the results of this study can be invested in the best way to curb the pandemic and prevent individuals and institutions from its short and long-term effects.

<FROM A1 'Rowing with undeterred focus'

To make good time required them to row ceaselessly and with undeterred focus for about six hours at a stretch. It is a feat that is tough for even those who are skilled in navigating the water, and to ensure they had enough energy throughout their time at sea, Natalie packed plenty of nuts and dry fruits, donated for this excursion by the Pakistani community in Oman to last for the entire duration of their journey, into little bags from which they could easily eat.

The women were given an en-

tire crate of raisins, a big bag each containing a few kilos of figs and almonds, and two more massive bags packed with cashews, pistachios and peanuts.

"What are we going to eat in the kayak?" muses Natalie. "Well, Anissa and I had a big chat about what we are going to eat when we are kayaking for six hours at a time. A whole big bag of nuts! I've just spent the morning decanting these into little bags. Let's hope they're waterproof!"

Ahead of their departure, KK Ahsan Wagan, the ambassador of

Pakistan to Oman, met the women to wish them luck for their journey.

Anissa said, "My mother is Pakistani – although she is not here in Oman at the moment – so when the Pakistani community heard of this, they were very keen to chip in. One of the most important aspects of community spirit from my mother's side of the family is to never let a guest go hungry, so when people from Pakistan here heard of this, they said 'hum usse bhuke nahi rehne denge' (we will not let her go hungry) and they gave us plenty of food for the journey."

CORONAVIRUS VACCINE

Pfizer, BioNTech apply for EU approval of COVID-19 vaccine

BERLIN: Pfizer and BioNTech have applied to the European drugs regulator for conditional authorization of their coronavirus vaccine, the companies said on Tuesday. The submission to the European Medicines Agency (EMA) comes after the US pharmaceutical giant and its German partner applied for emergency approval in the US. Clinical tests showed their vaccine, named BNT162b2, was 95% effective against COVID-19. BioNTech has said it could be made available in Europe before the end of the year.

"We have known since the be-

ginning of this journey that patients are waiting, and we stand ready to ship COVID-19 vaccine doses as soon as potential authorizations will allow us," Pfizer's chief executive, Albert Bourla, said. The companies are competing with rival US firm Moderna, which announced on Monday that it had also applied to EU and US regulators to allow the emergency use of its vaccine. The EMA said that it would complete an assessment of the BioNTech-Pfizer vaccine by December 29 and Moderna vaccine by January 12. **AP**

Pride at stake as Kohli and boys aim to win third ODI

The Virat Kohli-led side still has much to play for in the third and final ODI, scheduled to be held on Wednesday

CANBERRA: Although India have already lost the three-match ODI series against Australia with the hosts taking an unassailable 2-0 lead, the Virat Kohli-led side still has much to play for in the third and final ODI, scheduled to be held on Wednesday. Apart from avoiding the humiliating ODI series whitewash, India can earn points in the ICC Men's Cricket World Cup Super League.

The ongoing series between India and Australia is a part of the ICC Men's Cricket World Cup Super League and defeats in the opening two ODIs means India is yet to open their account. Whereas, Australia have so far played five matches in the Super League, registering four wins and one defeat. With 40 points under their belt, Australia top the ICC Men's Cricket World Cup Super League standings followed by England, who have 30 points from six games. The International Cricket Council (ICC) launched the Men's Cricket World Cup Super League in July this year, with an aim to bring context to ODI cricket. The Super League will determine

qualification for the ICC Men's Cricket World Cup 2023 with the top seven teams automatically booking their spot at the event in India. However, it will not be an easy task for the Indian team to overpower Australia, who are high on confidence after securing two comprehensive wins over the visitors. In both ODIs, Australia racked up a total of more than 350 runs with Indian bowlers struggling to thwart their opposition's batsmen.

Jasprit Bumrah, who holds the second spot in the ICC ODI Bowling Rankings, also failed to hinder Australia's batting line-up

in both ODIs. Whereas, Australia batsmen are showing no signs of trouble hitting the ball all around the park, and bowlers are also delivering good performances to ensure big wins for the team. The Aaron Finch-led team registered a 66-run win in the first ODI and a 51-run win in the second.

Steve Smith smashed a century in both matches, playing a knock of 105 and 104 in the first and second ODI respectively. However, the only advantage that India is going to enjoy going into the third ODI is that Australia will be without their in-form opener David Warner and Pat Cummins as the

duo is set to miss the remaining white-ball matches. Warner had suffered a groin injury during the second ODI.

While D'Arcy Short has replaced Warner, no direct replacement has been made for Cummins at this stage. "Pat and Davie are critical to our plans for the Test Series. Davie will work through his injury rehab and in Pat's case it is important all of our players are managed well to keep them mentally and physically fit throughout what is a challenging summer," Australia's Head Coach Justin Langer had said.

Ziyech terms Hazard a 'world-class player'

LONDON: Chelsea's Hakim Ziyech has praised Real Madrid's Eden Hazard saying that the latter is a "world-class player."

Hazard played for Chelsea before making a move to the Spanish club in June last year. During his time with the Premier League side, Hazard scored 110 goals in 352 games. "Eden is a world-class player. You always take inspiration from that, how he plays the game. You always look at the small things, how he does stuff - and I can learn a lot from him," Goal.com quoted Ziyech as saying.

Chelsea are currently placed in the third spot on the Premier League table, only behind Liverpool and table-toppers Tottenham. On Sunday, Chelsea played out a goalless draw against Tottenham.

Ziyech believes that Chelsea are capable of competing for the title.

"Of course, we can make a challenge. You always have to believe in it. It starts from believing in it and then working every day harder," he said.

"At the need of the day, we will see what it brings. But you have to believe it is possible and that is what we are doing. We believe it," Ziyech added.

Chelsea are gearing up for the Champions League match against Sevilla, scheduled to take place on Thursday. **ANI**

FOOTBALL AWARDS

Manuel Neuer 'very grateful' to be part of 'great team' Bayern Munich

MUNICH: Bayern Munich's Manuel Neuer said that he is grateful to be a part of this "great team" and credited the "entire defensive unit" for his nomination for the Best FIFA Men's Goalkeeper award.

FIFA on November 25 revealed the candidates shortlisted for seven of the individual trophies that will be presented at The Best FIFA Football Awards ceremony on December 17.

Apart from Neuer, Alisson Becker, Thibaut Courtois, Keylor Navas, Jan Oblak, and Marc-Andre ter Stegen have been nominated for the Best FIFA Men's Goalkeeper award. "Of course, as a goalkeeper, that makes you very proud, but I think it's also an appreciation for us as a team. I'm very grateful to be part of a great team with really good players, especially in front of me in defence. When it comes to an award like this, it's not just a success for me personally, but for the entire defensive unit. That's a good feeling. It also shows that we've done a great job in Europe -- in Lisbon and in the Champions League in general. We can be proud of ourselves," the club's official website quoted Neuer as saying.

Neuer said the players try to perform to the best of their ability and he is having "so much fun" playing for Bayern Munich.

"It has to be said that I have a lot of confidence in the people in front of me. I'm very grateful for the players in front of me -- no matter who it is now in our back four, in defence. We always try to perform the best we can together -- and that's why I'm having so much fun

at the moment, playing under this coaching team and with all the players," he said.

"I think that we're very confident in ourselves, you can see that we just have a great team on the pitch, and for me personally it's because of this that I'm never afraid to do what I have to do in the game. Instead, I'm very brave and always try to make the right decision," Neuer added. **ANI**

Hamilton to miss Sakhir Grand Prix after testing positive for coronavirus

NEW DELHI: Mercedes will be without Lewis Hamilton for this coming weekend's Sakhir Grand Prix in Bahrain after the seven-time world champion tested positive for coronavirus.

Mercedes, in a statement, said he woke up on Monday with 'mild symptoms'. "The Mercedes-AMG Petronas F1 Team regrets to announce that Lewis Hamilton has tested positive for COVID-19 and will be unable to take part in this weekend's Sakhir GP. posted on Twitter.

"However, he woke up on Monday morning with mild symptoms and was informed at the same time that a contact prior to arrival in Bahrain had subsequently tested positive. Lewis therefore took a further test and returned a positive result. This has since been confirmed by a retest," it added.

EUROPEAN STABILITY MECHANISM

Eurozone finance ministers agree to proceed with bailout fund reform

BRUSSELS: Eurozone finance ministers decided to proceed with the reform of the European Stability Mechanism (ESM), the permanent euro bailout fund established in 2012 amid the European debt crisis.

The ESM will play a role as a common backstop to the Single Resolution Fund (SRF), a reform the ministers agreed to push into force by the beginning of 2022,

revealed a Eurogroup statement following the ministers' video conference. The SRF was created in 2014 to resolve failing banks in the eurozone and shore up the whole financial system.

The statement added that the ministers will sign the revised ESM Treaty in January before launching the ratification process. "These decisions mark another important step towards

completing the Banking Union," said the statement.

Since its establishment, the ESM, with a lending capacity of up to 500 billion euros, aims to play the role of "permanent firewall" to provide financial assistance to euro area countries experiencing or threatened by severe financing problems, as well as to provide loans for the recapitalisation of troubled banks. — Xinhua

ENHANCING CYBERSECURITY

GSMA chooses Omantel to represent at ITU Forum

MUSCAT: The Global System for Mobile Communication Association (GSMA) announced the selection of Omantel, the leading provider of integrated telecommunications services in the Sultanate, as a case study at the International Telecommunication Union (ITU)'s Forum on cybersecurity and combating electronic piracy.

During its participation, Omantel highlighted GSMA's contribution to enhancing the security of mobile communications networks. The selection comes in recognition of Omantel's commitment to establishing partnerships that enhance sharing knowledge.

Contribution

In the ITU's latest contribution entitled 'Lessons Learned from the COVID-19 Pandemic' which was presented at the recently held regional conference for the Arab Region as part of the 'Global Cyber Drill - 2020' event held in September, GSMA chose Mu-

hammad Moqetour Rab, Senior Manager of Security Architecture and Operations at Omantel to represent the GSMA Fraud & Security Group along with two senior officials from GSMA Jon France, Head - Industry Security and Amr Hashem, Technology Director, MENA.

Initiatives

Eng. Abdullah Hamoud Al Barwani, GM Information Security at Omantel said, "At Omantel, we have the expertise, resources and talents that assist us in addressing cyber threats, and as part of our international partnerships and cooperation, we have previously worked closely with the GSMA and our other partners on many initiatives to confront the cyberattacks that have multiplied during COVID-19 pandemic."

"At Omantel we are working in implementing the best international information security standards, policies and practices. We are

proud that we were among the first companies in the world to implement the ISO 27701 standard to protect privacy and data. Omantel constantly endeavours to protect its systems, which in turn enhances the protection of the subscribers' interests," he added.

Coordinating efforts

International organisations such as the ITU and GSMA have played a pivotal role in coordinating efforts, sharing information and promoting guidelines, standards and advice for dealing with emergencies such as epidemics.

Omantel is an active member of many international federations and associations such as the ITU and GSMA, the conference organised by the association, the fraud and security groups, the Internet of Things and the Fraud and Security Advisory Panel (FSAP). Omantel's team has been involved in drafting many international standards and guidelines.
